

RV Shocker™ INSTRUCTIONS

For use in RV's with interiors of up to 400 sq/ft of floor space.

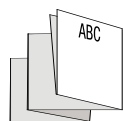

Read all instructions before using!

In order to guarantee success, follow all directions **exactly as indicated**

1. Place vehicle out of direct sunlight (ie. Carport or garage)
2. Open container and remove all contents
3. Read all information on foil packet then open packet at notch edge carefully so as to not damage content inside. Remove the CLO2DMG Technology™ white pouch from inside and discard desiccant. Save foil packet until treatment is finished.
4. Take the CLO2DMG Technology™ white pouch and shake thoroughly to mix ingredients. Then place pouch back in

the container provided.

5. Place container in designated area, for additional safety place on a plate or container lid to prevent damage from spillage, staining or bleaching.
6. Using measuring cup provided add one full measuring cup of warm tap water over pouch to activate. **Do not put lid back on container** until treatment is over and product is ready to be discarded.
7. Close all doors and windows and lock vehicle to prevent others from entering vehicle while the product is working. **This product is completely nontoxic however it is an irritant, therefore there should be no persons or pets in the vehicle while the RV Shocker™ is activated and in use.**
8. Leave the RV Shocker™ working for 4 to 24 hours depending on severity of odor.
9. At end of treatment open all doors for ventilation, and place lid back on the RV Shocker™ and dispose in an outdoors waste container.

SPECIAL INSTRUCTIONS: Fold in half lengthwise then in accordion style (aka broadside accordion). The contact info must appear on the back of finished folded piece.

10. Allow vehicle to ventilate for 20 minutes before entering.

TIPS: In order to ensure optimal performance, you may want to follow these tips.

- a. Before using RV Shocker™, make sure all interior compartments are open (ie. Glove box, armrest compartments, etc.).
- b. Pull down all visors.
- c. Place floor mats on their sides.
- d. Clean out ashtrays and remove trash.
- e. Change air filters.
- f. Before step 9, set fan to recycle and run fan for 15 minutes.
- g. For best results use in temperatures 50 °F and above, product will still work below 50 °F but will take longer for gas to expand throughout the interior.

For money back guarantee policy please hold onto foil packet and refer to our FAQ on our website.

RV Shocker™ is a safe and non-toxic product that will degrade into a saltwater solution. All components are biodegradable and eco-friendly. Made in the USA.
